EXPERIENCE

Unfair Advantage, Helsinki — *Fullstack Developer*

SEPTEMBER 2023 - PRESENT

In my current role, I play a vital part in an Agile team, responsible for maintaining and enhancing a critical enterprise-level application. This multifaceted role involves working with a variety of technologies, leading daily standups, and providing valuable support to my team members in addressing challenges.

PROJECTS

Totalwash - Ecommerce App

https://totalwash.vercel.app

A full stack ecommerce application for a business that sells bathroom furniture. The frontend was built using Nextjs and Tailwind, while the backend runs on Nodejs Express with a MongoDB database. Payments are handled by the Stripe API.

Snapshot- Social Media App

https://react-snapshot.netlify.app

A full stack social media application based off of Twitter. Firebase was used for backend authentication, file and data storage while React was used on the frontend.

EDUCATION

University of Birmingham, Birmingham, United Kingdom — *BA Political Science and International Studies*

SEPTEMBER 2016 - 2019

Drawing upon my background in political science, I bring a unique perspective to web development, blending analytical thinking and problem-solving skills to create innovative and effective solutions.

SKILLS

Communication. Fosters collaboration and ensures clarity.

Problem Solving. Necessary for tackling technical challenges.

Attention to Detail. Allows the foresight to identify issues before they affect the team.

Adaptability. Gives me confidence in rising to overcome new obstacles.

Agile methodology. Enables flexible, client-focused development.

TECHNOLOGIES

Javascript, Typescript, Python, React, Meteorjs, Nodejs, Tailwind, Component Libraries, REST APIs, Git, Express, Flask, Jira, Databases, Webhooks
